## PRESS RELEASE

**Date: 16<sup>th</sup> March 2020**

# Finding Wafers Just Got Much Easier

*Inseto launches comprehensive online store for selecting and ordering silicon, silica, glass, coated and SOI wafers.*

**Andover, United Kingdom** – Inseto, a leading technical distributor of equipment and materials, has added an online [store](#) to its website. The store, which carries Inseto’s current inventory of semiconductor wafers, including silicon, silica, glass, coated and silicon on insulator (SOI), features secure online payment and rapid delivery of stocked wafers. Also, Inseto’s online inventory is soon to include sapphire, silicon on sapphire (SoS), lithium niobate, germanium and other materials.

A powerful filtering tool enables users to narrow down their searches by specifying properties common to all wafers, such as diameter and thickness. Then, depending on wafer material, the properties become more specific. For example, silicon wafer properties include ingot growth method, crystallographic orientation, dopant, grade and upper and lower surface resistivity.

Matt Brown, Director of Inseto, comments: “We have ploughed the combined knowledge of our wafer and supply chain experts into our online store. In our experience, most customers know the exact specifications of the wafers they need, certainly in the case of repeat orders, or they wish to rapidly explore a range of properties and available options.”

The site also carries a Wafer Selection Guide. This is accessible from within the online store and from within Inseto's Knowledge Base, a repository of freely available, viewable and downloadable articles and guides.

Brown concludes. "At Inseto, we're all about customer support. It's in our DNA. Also, whilst the online store has greatly speeded the wafer selection and ordering process, our experts remain on hand to offer advice and guidance if anyone does have questions."

#### MAIN ENDS

#### Notes to Editors

This press release was issued on behalf of Inseto (UK) Limited by DECLARATION ([www.declaration.co.uk](http://www.declaration.co.uk), +44 (0)1522 789000). If you have any editorial enquiries in relation to this announcement, please contact Mandy Warrilow, Press Officer, [mandy@declaration.co.uk](mailto:mandy@declaration.co.uk). Please contact Richard Warrilow, Technical Author, [richard@declaration.co.uk](mailto:richard@declaration.co.uk), if you require an article or any other form of copy in relation to this press release.

Please contact Matt Brown on +44 (0)1264 334505 or via email ([matt.brown@inseto.co.uk](mailto:matt.brown@inseto.co.uk)) in relation to all advertising and sponsorship matters.

#### About Inseto (UK) Limited

Established in 1987 and ISO 9001:2015 Certified since 2005, Inseto is a leading technical distributor of equipment and related materials to the semiconductor, microelectronic & advanced technology sectors, as well as adhesives for electronics, automotive and industrial manufacturing.

The company has three divisions, namely:

- ) **Equipment Division**, which provides manufacturing equipment for the Microelectronic, Photonic, Electronic, Photovoltaic and Semiconductor industries etc.

- ) **Consumable Division**, which provides assembly materials and machine consumable items for the Semiconductor, Electronic, Microelectronic, Photonic MEMS and Hybrid assembly industries etc.
- ) **Adhesive Division**, which provides technically advanced adhesives for bonding, sealing and encapsulation, and which exclusively represents DELO Industrial Adhesives in the UK and Ireland.

Inseto is based in Andover in a high-tech building that houses an adhesives application laboratory, demonstration areas for equipment and instrumentation, and training rooms.

Customer support is at the heart of Inseto's *Total Customer Service* philosophy, where the company aims to understand, communicate and fulfil the needs of its customers. The company is committed to meeting customer requirements through the application of high standards of quality and customer care (both before and after sales) by continually investing in training and adopting a policy of continuous improvement.
